

## TRACK OF A TEXAS CYCLONE

Ruin and Devastation in Wake of Storm.

DWELLINGS BLOWN DOWN.

Several Injured and One Person Killed Outright.

Dallas, Texas, Oct. 29.—A special to the News from Sherman says: A well defined tornado formed in Squirrel Creek bottom, four miles west of the village of Farming, and about one hundred miles southwest of this city.

Persons who saw it at its inception say that out of a seething, tumbling mass of inky clouds a funnel-shaped column descended until it touched the earth, and then it began to move northeastward, accompanied by the usual terrific crash and roar as it tore through the bottoms, uprooting large trees and demolishing everything in its path which for the first mile or two was thirty or forty yards wide.

The first house it is known to have struck was on the George Duke farm, one mile west of Howe, and about five miles from the starting point. No one was hurt at this place. From this point until it struck the Jim Farris farm, two miles south of the city, a distance of about two miles, it is known to have risen and descended several times, and what damage it did has not yet been ascertained.

Several persons have gone to that place, but it will be several hours before definite information can be had. At the Farris place, a tenant hut, occupied by a family named Hayes, was literally torn to pieces, and every member of the family was more or less injured.

Hartshorne, I. T., Oct. 29.—Yesterday evening's cyclone played havoc in Mine No. 12 at Krebs. At Wewoka Gov. Brown's big store, the new church and four other buildings were blown down. Several people were hurt at Wewoka, but none seriously. At Mine No. 12 several persons were reported killed outright.

The tornado struck Alderson, a mining town belonging to Choctaw Coal Company, eight miles distant, destroying the section house and three other buildings. No persons were seriously injured.

Guthrie, Okla., Oct. 29.—During the night a disastrous tornado prevailed in Lincoln county, 30 miles east of here, followed by a cloud burst.

A dozen or more residences and other buildings were wrecked, and an enormous amount of damage was done to property and crops.

Mr. and Mrs. John McLaughlin were instantly killed and a number of others were badly injured.

There are rumors of other deaths farther north.

JILL FATED SHERMAN.

Sherman, Tex., Oct. 29.—A tornado originated about 5:15 o'clock last evening near Farmington, 16 miles southwest of Sherman, and after forming took a northeasterly course, passing about three miles east of Sherman.

The first destructive work of the storm was noted 12 miles southwest of Sherman, where it demolished a tenant house on the farm of George Duke. No one was hurt at that place, and the tornado rose from the earth, striking again at a point about four miles southeast of Sherman.

Several persons telephoned from a suburban residence in the neighborhood, asking that searchers be sent out to look for persons who are missing. Requests were also made for physicians, bandages, stimulants and other articles necessary to care for the wounded.

Reports of the number of wounded are very indefinite, as it was pitch darkness soon after the passing of the storm. A man who was in the Farris field is among the missing. Denison, Tex., Oct. 29.—A tornado doing thousands of dollars' worth of damage passed over north Texas last night. The storm fell heavily on this city, unroofing many buildings. The post-office was damaged. Reports from the surrounding country indicate loss of life and great destruction of property. The tornado was accompanied by a cloud burst. Relief parties have gone to the country to ascertain the extent of the damage and help those who were injured.

## Secret of Beauty

is health. The secret of health is the power to digest and assimilate a proper quantity of food. This can never be done when the liver does not act its part.

### Do you know this?

Tutt's Liver Pills are an absolute cure for sick headache, dyspepsia, sour stomach, malaria, constipation, torpid liver, piles, jaundice, bilious fever, biliousness and kindred diseases.

### Tutt's Liver Pills

### WHERE PENSION MONEY GOES.

### Distribution by States Shown in the Commissioner's Annual Report.

Indiana comes near standing at the head of the list. The population in 1890 was 2,192,404. The pensioners number now 88,836, and the amount paid is \$10,581,861. This is nearly \$5 per capita for every man, woman and child in the state.

Massachusetts with a population nearly the same as Indiana, but a little larger, had only 38,340 pensioners, drawing \$5,480,614. This wide difference is due largely to the movement of Massachusetts veterans west.

Iowa, with about one seventh less population than Indiana, and well known as the home of a large number of veterans, has 37,798 pensioners drawing \$5,463,976.

Ohio stands at the head of the list in the total number of pensioners, which is 103,921, drawing \$15,432,462. Illinois, with a slightly larger population than Ohio, and 70 per cent more population than Indiana, has 68,688 pensioners, drawing \$9,844,792. New York has 87,006 pensioners drawing \$12,409,269, and Pennsylvania has 98,837 pensioners drawing \$15,459,588. Kansas has 42,433 pensioners drawing \$6,321,389, while New Jersey has but 20,017, drawing \$2,445,465.

Missouri draws nearly \$3 per inhabitant for pensions, amounting to \$7,272,320 for 53,802 pensioners. South Carolina comes at the bottom of the list of the older states with 2,669, drawing \$203,213. Arkansas through northern immigration, has raised her roll and gets annually \$1,339,167.

Nearly every country in the world is the home of at least one pensioner, there being one in the Azores, three in Brazil, two in Algiers, four in the Argentine Republic, nine in Chili, one in Egypt, one in Roumania, one in Venezuela, ten in Japan, one in Korea, three in Liberia and even one in Finland.

CASTORIA. The fact is, the signature of Dr. H. H. Plummer is on every wrapper.

### Train Load of Gold.

Chicago, Ill., Oct. 29.—Railroad employees at the Grand Central Passenger Station thought the advance guard of the army had arrived in Chicago when the Baltimore & Ohio fast express train pulled into the station last night. The United States Express Co., had a special car attached to the train and all except one little corner of this car was filled with men who carried revolvers and guns having bristling bayonets. In the little corner, however, was a sufficient wealth to satisfy a dozen gangs of train robbers if they had secured it.

The wealth consisted of gold amounting to a legal tender value of \$2,500,000. It had been shipped from the Sub Treasury in New York to the Sub Treasury in this city and it was transferred from the express car to the Rand McNally building this morning. The transfer was due to the fact that the Chicago Sub Treasury was taxed to relieve the recent strain on the Sub-Treasury in San Francisco.

### Marvelous Results. 50 ct.

From a letter written by Rev. J. Gundersman of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended to us Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at H. L. Tucker's drug store. Regular size 50c and \$1.

### An All-Around Man.

The Tifton Gazette has discovered a justice of the peace who "takes the prize." By arrangement with the ordinary he was authorized to issue marriage licenses. In these days the negroes were beginning to enjoy the luxury of marrying just like white folks, and the J. P. was gathering in quite a lot of shekels, as he not only pocketed the license fee, but also charged a stiff price for tying the knot.

One day a dark hued couple presented themselves as candidates for matrimony, and he soon sent them on their way rejoicing. In a few days the man returned and stated that he could not live "wid dat 'ar 'oman."

"Very well," said the J. P., stroking his long judicial beard, "bring me \$15 and I'll give you a divorce." The negro returned with the money in a few days and was solemnly divorced "by due process of law."

This is the only instance on record where one man exercised the power of an ordinary, a magistrate, a preacher, a clerk of the superior court, a judge of the superior court and twelve jurors.

Improper and deficient care of the scalp will cause grayness of the hair and baldness. Escape both by the use of that reliable specific, Hall's Hair Renewer.

### Keep Plenty of Stock Hogs.

Experience has demonstrated that the farmer who keeps his hog stock up year in and year out is wise. Southern Stock Farm says: It is all well enough to say that it don't take any time to get into hogs. When everybody wants to buy it costs something to get in, however. The fact that hogs and corn get wide apart in price at times is largely due to lots of men going out of hogs when corn is high and hogs low, and going into hogs when corn is low and hogs high. For instance, in 1891 corn sold for 50 cents a bushel and hogs for \$3.50 per hundred. That year it was anything to get rid of hogs with a great many farmers. A year later, in the fall of 1892, everybody wanted hogs, and the men who got out in 1891 bought in at figures that materially cut down their margin of profit. Just now we have the object lesson of low prices on both corn and hogs, with the almost certainty that so far as corn is concerned low prices will rule for a long time. With hogs, however, the prospects are better for an up turn. If business revives during the winter, and especially if our foreign markets are retrieved by favorable legislation, as they can be, the prospect is for better prices. So it is well to keep up stock whichever way things go. In fact it has been proven beyond question that sticking to hogs through good conditions and bad proved best for all farmers who have tried it. We venture the prediction that the man who carries over a good lot of brood sows this season will never regret it.

According to a celebrated anatomist there are upwards of 5,000,000 little glands in the human stomach. These glands pour out the digestive juices which dissolve or digest the food. Indigestion is want of juice, weakness of glands, need of help to restore the health of these organs. The best and most natural help is that given by Shaker Digestive Cordial. Natural, because it supplies the materials needed by the glands to prepare the digestive juices. Because it strengthens and invigorates the glands and the stomach, until they are able to do their work alone. Shaker Digestive Cordial cures indigestion certainly and permanently. It does so by natural means, and therein lies the secret of its wonderful and unvaried success.

At druggists, price 10 cents to \$1 per bottle.

### Bryanites Cause a Murder.

Ashtland, Ky., Oct. 29.—At Prestonburg, Floyd county, free silver Democrats, led by a deputy sheriff, attempted to hawl down the speaker, Hon. Augustus H. Wilson, of Louisville, Ky., and in the contention that followed Ed Peary, a young Republican, was stabbed and killed by a young man named Marrs, a Democrat. The meeting adjourned in a general row, in which the offenders were roughly handled. Marrs was arrested and narrowly escaped being lynched on the spot.

Chief Justice W. H. Holt, of the Kentucky Court of Appeals, who was Mr. Wilson's companion on the trip, passed through the city this afternoon, en route home to Frankfort, and stated that a speaker took his life in his hands when he talked sound money in some of the upper valley communities.

## Consumption

Out-door life and Scott's Emulsion of Cod-liver Oil with Hypophosphites have cured thousands of cases of consumption in the early stages. They cure old, advanced cases too; but not so many, nor so promptly. When a case is so far advanced that a cure cannot be made, even then SCOTT'S EMULSION checks the rapidity of the disease, relieves the pains in the chest, reduces the night sweats, and makes the cough easier. In these cases it comforts and prolongs life. Don't experiment with cures that destroy the digestion. Pin your faith to the one remedy which has been THE STANDARD FOR OVER 20 YEARS.

Book about it free for the asking. For sale by all druggists at 50c. and \$1.00. SCOTT & BOWNE, New York.

### Wishard Sells Out.

Newmarket, Oct. 20.—The entire stud of American horses belonging to Enoch Wishard were sold today at Tattersall's and fetched, 7,370 guineas (\$38,692). There was a large crowd present, including the Duke of York, Sir John Blundell Maple, Lord Rendlesham and Sir Maurice and Lady Fitzgerald.

George H. Ketcham was first offered, started at 500 guineas, and at 1,200 guineas was sold to F. W. Dani.

C. Hibbert bought MacBriggs for 2,200 guineas. M. Le Bandy bought Wishard 2,000 guineas. Count Lehn droff, aide-de-camp of Emperor William of Germany, purchased Helen Nickoll for 1,150 guineas. Ramapo was knocked down to Sir J. Duke for 400 guineas, and Hugh Penny went to F. W. Day for 420 guineas.

## CASTORIA

For Infants and Children.

The fact is, the signature of Dr. H. H. Plummer is on every wrapper.

Massacre Confirmed.

Boston, Oct. 27.—Advices from Kharput, Eastern Turkey, received in Boston confirm dispatches in regard to the extent and barbarity of the recent massacre at Egin. These advices state that many of the dead were left in the streets for days as food for dogs and large numbers were thrown into the Euphrates. The bodies were seen floating down the river 50 miles below the city. In some cases whole families were obliterated. Exact statistics, of course, cannot be given now, but it is feared that 2,000 is an underestimate. All the testimony at hand concurs in showing that the massacre was official, and that it was wholly without reason.

A man may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the white of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article. Address with 21 cents in one-cent stamps to cover cost of mailing only, World's Dispensary Medical Association, Buffalo, N. Y., and get a free copy of the "Medical Adviser."

### Greenback Flood.

San Francisco, Cal., Oct. 23.—The sub-treasury here has just pulled through a rather serious run, which threatened to annihilate its gold reserve and leave it without a dollar with which to redeem the perfect avalanche of greenbacks that poured in over the counter. Timely aid came from Chicago and other sources and when the outflow of gold finally stopped the \$12,000,000 of a few months ago, despite the frequent additions that have been made, was reduced to a bare \$4,000,000.

Always in season. Hopkins' Steamed Hominy (Hulled Corn). Elegant lunch in milk. Quart can, 10c.

### Accidentally Killed Her Son.

Marysville, Mont., Oct. 29.—Mrs. J. W. All shot and accidentally killed her 10 year old son and fatally shot her husband this morning. He was whipping the boy and she interfered, when he turned on her. She took a rifle and shot at him, but killed the child by accident. She shot him in the head. He may die. She is crazed with grief.

### Use Thistles for Fuel.

Coamberlain, S. D., Oct. 28.—As the result of experiments last winter, the mill at Castalia will again this winter use the Russian thistle for fuel in place of coal. The proprietor of the mill offers farmers \$1.50 per ton for all the thistles they can bring in. Thus the farmers in that section will receive an income from what has heretofore been one of their greatest enemies, the thistles growing in such profusion in some localities that small grain has been completely crowded out.
